

TOURTALK[®]

COMMAND TRAINING SYSTEMS

A Tourtalk command training system reduces frustration and confusion for the participants and stops you straining your voice.

No longer do you have to compete with noise or distance to be understood.

Ensure you are clearly heard next time you conduct training and provide a professional experience!

The Tourtalk TT 100-CT23MH is a complete command training system comprising 2 transmitters with headband microphones (for the instructors), 23 receivers with headphones (for the participants) and a charger transport case.

Examples of use

Sports Coaching
Staff Training
Group Instruction

How it works

The Transmitters

Each transmitter features an integrated microphone, microphone socket (to connect the headband microphone), and microphone mute switch. An aux-in socket to enable the connection of a smartphone is also provided.

The trainer can speak at a comfortable level without having to shout. They can even whisper the instructions if necessary.

The Receivers

The receivers feature a jack socket to connect the lightweight headphones. The user can adjust their own volume to a comfortable level.

A wide range of accessories are available for the Tourtalk system to suit many applications. For more information please visit the website.

TT 100-CTC13MH

Tourtalk TT 100 systems are also used for:

- **Simultaneous Interpretation**
- **Guided Tours**
