

TOURTALK

SILENT CONFERENCE SYSTEMS

A Tourtalk silent conference system reduces confusion and distraction for your audience and stops you straining your voice.

No longer do you have to compete with noise or distance to be understood.

Ensure you are clearly heard on your next presentation and provide a professional experience!

The Tourtalk TT 100-SL24H is a complete silent conference system comprising 1 transmitter with lapel microphone (for the guide), 24 receivers with headphones (for the audience) and a charger transport case.

Examples of use Staff meetings in public areas

Seminars in noisy environments

Multiple breakout groups in the same room

How it works

The Transmitter

The transmitter features an integrated microphone, microphone socket (to connect the lapel microphone), and microphone mute switch. An aux-in socket to enable the connection of a smartphone is also provided.

The presenter can speak at a comfortable level without having to raise their voice.

The Receivers

The receivers feature a jack socket to connect the lightweight headphones. The audience can adjust their own volume to a comfortable level.

A wide range of accessories are available for the Tourtalk system to suit many applications. For more information please visit the website.

TT 100-SLC14H

Tourtalk TT 100 systems are also used for:

- **Simultaneous Interpretation**
