

Product Overview:

Listen Technologies' LA-365 Rechargeable Lithium-ion Battery offers a combination of extended charge life and quick charging. Consistent, reliable, and long-lasting power make the battery a cost-effective choice while reducing the expense and environmental costs associated with frequent alkaline replacement.

Highlights:

- Environmentally friendly and long lasting
- Quick to recharge
- Each battery is backed by a one (1) year warranty

Includes: One (1) LA-365 Replacement Rechargeable Li-ion Battery

| Product Specification: Replacement Rechargeable Li-ion Battery | |
|--|--|
| Power | |
| Battery Type | Lithium-ion NP60 |
| Battery Charging Time | From discharged to fully charged in 2 - 2.5 hrs when used with iDSP receivers and 1-2 hrs when used with ListenPoint M1 Microphone |
| Battery Capacity | 1200 mAh |
| Battery Voltage | 3.7 V |
| Battery Cycle Life | 3,750 - 4,700 Discharge Cycles @ 10% Depth of Discharge (DoD) before battery capacity drops to 70%, 2,000 - 2,500 @ 25% DOD, 1,200 - 1,500 @ 50% DoD, 300 - 500 @ 100% DoD |
| Battery Operating Time | Typically 8 - 9 hrs. when used with iDSP receivers and 6 - 8 hrs. when used with ListenPoint M1 Microphone |
